ANNOUNCEMENT OF FELLOWSHIP

OSHAWA, ONTARIO AUGUST 25, 2019: The North American School of Internet Governance (NASIG) is pleased to announce the recipients of its Fellowship programme. NASIG will be held in Montreal on October 31st and November 1, 2019 at the prestigious John Molson School of Business at Concordia University in Montreal.

“Our fellows come from a wide range of locations and diverse backgrounds, with 70% coming in from outside North America and they come to learn and share their knowledge on Internet Governance issues”, said Glenn McKnight, NASIG Project Coordinator.

NASIG is the only School of Internet Governance in North America and it follows on from the successful NASIG Puerto Rico that took place prior to the ICANN 61 meeting in San Juan, Puerto Rico in March 2018.

The programme is a full two-day event with 40 moderators and speakers from a wide range of backgrounds and provides significant opportunities for the fellows to interact with local, regional and global industry thought leaders.

Alfredo Calderon, co-chair of the Academic Programme, states that ***“this School of Internet Governance follows the idea of engaging various communities in understanding the importance of getting involved in making the Internet more reliable, accessible, and interoperable. It is invaluable for our fellows to be exposed to various experts exchanging their experiences with them.”***

The Schools of Internet Governance are located across the globe and organized by a team of local volunteers from business, civil society and academia to provide a nurturing environment for Internet Governance professionals.
