

Jahangir Hossain

I'm the founding member and currently Vice Chair, Board of Trustee of Internet Society (ISOC) Bangladesh Dhaka Chapter which certified structure for At-Large in ICANN as an At-Large Structure (ALS) in APRALO region. Also founding member of Executive Committee, Bangladesh Network Operator Group (bdNOG).

I fellowship alumni member of South Asian Network Operators Group (SANOG), Internet Society Next Generation Leader, Internet Corporation for Assigned Names and Numbers (ICANN) and Internet Governance Forum (IGF) Secretariat, United Nations.

I have been working in Internet Service and Solution Provider industry more than 12 years also expertise in Network Architecture, Operation and Management.

I have been active member in various working groups of ICANN At large, IETF, NOGs and trying to put contribution from developing countries perspective to building awareness and skill on Internet governance principle in local and regional community.

At present he has been working as a Sr. Manager of Data Communication Network in BanglaTel Group where BD LINK Communication Ltd is an International Internet Gateway (IIG) & International Territorial Cable (ITC) Provider, BanglaTel Ltd. is an International Gateway (IGW) provider and Jibondhara Solution Ltd. is an Interconnection Exchange (ICX) in Bangladesh.

Beside these I have been working on policy making process, awareness and development in various stakeholders also working as an ICT presenter, Trainer as well as organizer for local and international community. Now he has been trying to build up awareness and skill for analysis Internet Resource, Internet governance principle, cyber security and data protection to ensure Internet for Everyone.
