

Hanan Khatib

I am Hanan Khatib, IT Consultant worked with Application development and deployment and Business Analysis and Organization structures, and individual member of APRALO, and I am joining the team establishing ISOC Jordan where I am a Board member.

As mentioned before, I am an IT Consultant, I have MSc. in Information Systems and unfinished PhD. in Computer Science.

I worked for governmental organizations, Banks and private companies. The last job I worked with USAID as a project manager for Oracle ERP implementation.

I also train some courses in Oracle Apps (HRMS and Oracle Project management and Property management, I speak Arabic and English fluently and currently I am learning Korean .

I have been engaged with ICANN since ICANN 60 which is about two years. Ever since, I am trying my best to become more active at different fronts.
